Journal of Hydrology

Contents of Volume 183

Vol. 183 Nos. 1–2 August 1996

Special Issue: Effective Parameter Estimation for Flow and Transport in the Subsurface

Preface vii
Upscaling hydraulic conductivities in heterogeneous media: An overview
X.-H. Wen and J.J. Gómez-Hernández ix
Scale effects in transmissivity
X. Sánchez-Vila, J. Carrera and J.P. Girardi 1
Conditional simulation of geologically averaged block permeabilities
A.G. Journel 23
The 'missing scale' and direct simulation of block effective properties
T. Tran 37
Average flow in heterogeneous media of trending hydraulic conductivity
P. Indelman and Y. Rubin 57
Large-scale properties for two-phase flow in random porous media
A. Ahmadi and M. Quintard 69
Effective parameters for multiphase flow in layered soils
M.B. Butts and K.H. Jensen 101
Dual-tracer transport experiments in a physically and chemically heterogeneous porous aquifer: effective transport parameters and spatial variability
T. Ptak and G. Schmid 117
A simple mixing layer model predicting solute flow to drainage lines under preferential flow
G. Shalit and T. Steenhuis 139
Transport of reactive species in heterogeneous porous media
W. Schäfer and W.K.H. Kinzelbach 151
Linearized cosimulation of hydraulic conductivity, pressure head, and flux in saturated and unsaturated, heterogeneous porous media
T. Harter, A.L. Gutjahr and T.-C.J. Yeh 169

Vol. 183 Nos. 3–4 September 1996

Research Papers

Using stable isotopes to determine sources of evaporated water to the atmosphere in the Amazon basin
L.A. Martinelli, R.L. Victoria, L.S.L. Sternberg, A. Ribeiro and M.Z. Moreira 191
An approach to annual water balance for small mountainous catchments with wide spatial distributions of rainfall and snow water equivalent
M. Tani 205
Estimating a sediment rating curve of the Reventazón river at Palomo using logged mean loads within discharge classes
M.B. Jansson 227

The hydrology of Lake Bosumtwi, a climate-sensitive lake in Ghana, West Africa
B.F. Turner, L.R. Gardner and W.E. Sharp 243
A Laplace transform solution for tracer tests in a radially convergent flow field with upstream dispersion
J.-S. Chen, C.-W. Liu, C.-S. Chen and H.-D. Yeh 263
Estimating probable maximum precipitation using a storm model approach
C.G. Collier and P.J. Hardaker 277
Laurel forests in Tenerife, Canary Islands: the annual course of sap flow in *Laurus* trees and stand
M.S. Jiménez, J. Cermák, J. Kucera and D. Morales 307
Evaluation and management of the impact of land use change on the nitrogen and phosphorus load delivered to surface waters: the export coefficient modelling approach
P.J. Johnes 323
Reappraisal of flow to tile drains I. Steady state response
S. Khan and K.R. Rushton 351
Reappraisal of flow to tile drains II. Time-variant response
S. Khan and K.R. Rushton 367
Reappraisal of flow to tile drains III. Drains with limited flow capacity
S. Khan and K.R. Rushton 383
The effects of climate change due to global warming on river flows in Great Britain
N.W. Arnell and N.S. Reynard 397
Parameters determining plant transpiration under conditions of sufficient soil moisture
J. Pražák, M. Šír, M. Tesař 425

Short Communications

L'aquifère des calcaires du Turonien (Bassin du Tadla, Maroc). Alimentations locales et lointaines à partir de l'Atlas
Y. Hsissou, P. Chauve and J. Mania 433
Caractérisation des eaux de l'aquifère turonien du bassin du Tadla (Maroc) par le rapport des concentrations molaires Sr^{2+}/Ca^{2+}
Y. Hsissou, P. Chauve, J. Mania, A. Mangin, M. Bakalowicz and A. Gaiz. 445
